October 24, 2022

Dear CCSD 46 Community,

Earlier today, you received an alert from our school district regarding police activity in the area. Information continues to unfold. We understand that the police department is seeking a specific individual, and that the matter is not connected to armed robbery as previously thought.

The police department has just called soft lockdowns for Meadowview School and Avon, indicating that there will be increased police activity in the neighborhoods in those areas this morning. This differs from the plans sent out this morning in that students and staff at those schools will stay in classrooms, and individuals will not go in or out of the school unless escorted by a staff member.

The rest of the schools are not on soft lockdown as the police department has not indicated that this would be necessary for the rest of our schools. However, we will continue to keep students at all schools inside for recess and Physical Education.

We have been asked whether we will or will not be continuing with after school and evening school activities today. We will send out another message later in the day once that is determined.

Sincerely,

Dr. Lynn Glickman  
Superintendent  
CCSD 46
