October 24, 2022

Dear CCSD 46 Community,

I am writing again with updated information. We are committed to sharing information with you as soon as we have it.

First of all, I've just spoken with the Round Lake Beach police department. They have let us know that the suspect has left the area in a vehicle, and police departments are continuing their efforts to apprehend the individual.

Although the individual has left the immediate vicinity, we prefer to err on the side of caution. For this reason, all of our schools are going into soft lockdown. Any individuals coming in or leaving the schools prior to dismissal will be escorted by a staff member. There will be many staff members present during dismissal, and, if possible, we will have police presence during dismissal at schools as well.

Although we hope that this matter is resolved soon, again out of extra caution, we are canceling all after school activities for today. We know that people have to rearrange schedules due to such changes, so we wanted you to know now. The only ongoing after-school presence will be the Right at School program.

We appreciate your partnership in working together to keep our school communities safe.

Sincerely,

Dr. Lynn Glickman
Superintendent
CCSD 46
