Memo: Indoor Air Quality (IAQ) Solutions and Equipment Assessments Update

Background

The district has contracted with Trane to conduct seven Indoor Air Quality (IAQ) Assessments, one for each of our school buildings. These are designed to deliver insights and concrete guidance to make decisions on improvements for individual building Indoor Air Quality based on overall system performance. On September 1, 2021 representatives from Trane will be presenting the findings and recommendations from the IAQ Assessments. These include strategic recommendations, with a focus on the key drivers of indoor air quality: building ventilation, humidity control, filtration and clean air. Through these insights and recommendations, we aim to:

- Increase confidence of the community that facilities have comfortable and clean air
- Support resilience against future challenges by deploying trusted solutions
- Contribute to our building's overall sustainability with targeted investments that generate results

Administrative Considerations

On July 7th, the Director of Operations & Maintenance, Adam Halperin gave an update to the Board of Education regarding the IAQ Assessments. These reports alongside the Long Range Facilities Plan (LRFP) being developed by our architect, Wold, collectively deliver a strategic roadmap for the administration and the Board of Education to prioritize and plan capital projects for the next 5-10 years.

The individual building assessment recommendations and associated costs will be presented to the Board of Education in the presentation.

District Goal

This action is responsive to: District Goal #3- Finance:

Review, expand, and clarify financial practices to increase transparency and communication, with a focus on aligning financial decision making to district goals.

Present Condition of Indoor Air Quality Systems Capabilities in CCSD 46

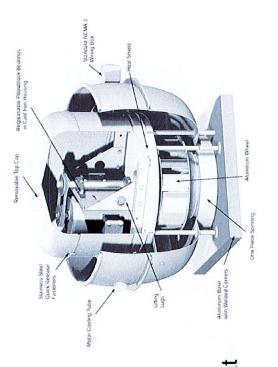

- Current Indoor Air Quality Systems are old, but safe and functioning
- Current Building Automation Systems technology is obsolete / this causes increased energy usage and limitations in operability
- This causes the district to be unable to perform sophisticated IAQ BAS strategies
- Various equipment across the district is beyond its ASHRAE life expectancy and needs replacement
- This causes the district to be unable to perform sophisticated IAQ equipment strategies
- Inefficient operation of equipment, controls, and exhaust system
- Too much manual operation
- Equipment life expectancy can be impacted
- Limited ability to exhaust properly per IAQ standards

Assessment Overview and IAQ Report Outcomes:

- district with their existing equipment as well to outline what exhaust, contain, and clean the indoor air across the Trane will outline how the district can properly dilute, needs to be done in the event infrastructure cannot properly accommodate
- The district will receive an Air System Quality Recognition plaque and associated decals to install on any building once an IAQ assessment is completed

dilute the buildup of indoor contaminants. Adjusting building ventilation is one tool that Proper ventilation ensures that plenty of fresh, outdoor air comes into the building to can influence indoor air quality.

ASHRAE Guidelines

Getting exhaust air out efficiently is equally important - including recirculated air from kitchens, restrooms, and combustion systems. Maintaining indoor humidity levels within the ASHRAE recommended range maximizes the comfort of building occupants while avoiding the likelihood of hamful microbial growth in the building. An increasing concern is the HVAC system's ability to reduce microorganisms, such as mold, bacteria, and viruses

Architect of Record Review & Feedback on Assessments

- Reports will be shared with Wold Architects, as available
 - Wold's feedback will be sent to the district and Trane

The Teacher on Special Assignment (TOSA) will facilitate the new mentor program, which includes a program funded through ISBE for first and second-year teachers to the profession as well as an in-house program for teachers new to the district who are beyond their second year of teaching. Currently, the district has hired 17 new support staff. Mr. Louis shared an update on instruction and the Institute Days taking place on August 17th and 18th. Mitigation strategies for the upcoming school year were shared. These include social distancing, masking, and cleaning protocols, along with information about activities, meetings, and school events. Dr. Glickman also talked about Shield testing, the saliva test that will take place weekly for students, and the BinaxNOW testing that will be a "test-to-stay" option for asymptomatic students who have been exposed to COVID.

New Business

Discussion of First and Second Year Mentoring Program
Memorandum of Understanding in partnership with Illinois
Federation of Teachers- For many years CCSD 46 offered a
mentoring program that supported first-year teachers new to the
district by teaming the new teacher with a veteran teacher on the
first day of school to help support their transition to the district.

To further support beginning teachers, ISBE worked with IEA and IFT to design and implement a comprehensive program that will offer every participating district's first- and second-year teachers, teaching specialists, and clinicians professional support. This mentoring program will be funded through a \$6.5 million grant, funded by the Elementary and Secondary School Emergency Relief (ESSER) Fund. This program will be facilitated by our Teacher on Special Assignment (TOSA). The Board agreed to the mentoring program and the Memorandum of Understanding.

Public Comment

Sarah Williams- Masks nor vaccination will ever stop COVID-19. A vaccinated person can still get covid 19. The only thing the vaccination does is lessen the symptoms. If somebody chooses not to get the vaccine, it's a personal choice and it does not affect somebody who is fully vaccinated. The non-vaccinated people are less likely to spread the virus vs the vaccinated people, simply because the vaccinated people are usually asymptomatic and still go out and live a normal life while being positive for COVID-19. Giving families the choice to mask their children or unmask their children has no negative side effects to the masked individuals. Quit making our kids out to be in the bogeyman. Give everybody a choice.

Abbie Pietruszynski- I just want to voice support for our board, our administration, our teachers, and the mitigation measures in place to protect our kids and the staff of our district. I don't know one person who is thrilled to wear a mask or one person who has died from wearing one. I do, however, know people who have died from Covid. We are not currently fighting a war like World War II, but we are fighting a global pandemic and I see it is every one of

our responsibilities to do our part to slow the spread. I also want to encourage funneling any government funding our district has received to expanding our Outdoor Classrooms and outdoor spaces in order to provide safer learning spaces and an additional learning tool for our students. Not only do outdoor spaces provide hands-on learning opportunities, but they also provide our kids the chance to learn in real life, in their local places, and they plant the seed to become environmentally literate. Our children deserve the opportunity to discover the wonder of the natural world in order to be inspired to save it.

Jeremy Heintz- Can you tell us about the layers of mitigation efforts that D46 schools will be employing throughout the schools. Can you tell us about the indoor air quality and ventilation, the distancing and class sizes, testing, and parent notification?

Will parents be notified if someone in our kid's class tests positive? I would want to be notified. I don't need a name, I just need to know that they were exposed and when. Thank you for all of your hard work and service to our community.

Laura Dias- Thank you for your careful decision-making in regards to the mask requirements for students in D46. I know these decisions are not easy and I appreciate the effort and consideration you take in making decisions regarding our children and their health and safety.

I can imagine that serving on a school board can feel thankless at times, but your work does not go unnoticed. I am grateful to send my boys to a district that is led by thoughtful, evidence-based leadership.

Anna Osis- Thank you for following the masking recommendations set forth by the American Academy of Pediatrics, CDC and IDPH. It is absolutely terrifying to think of schools doing otherwise. We all want our kids in school healthy and safe. Thank you again for keeping our community safe by requiring masks for all.

Jill Birdwell- Thank you to the board for following healthcare guidance regarding the masking policy. I want school to be able to continue to be in person just as much as anyone else. Therefore

being safe is important for them to be able to do that. Thus far the honor system is unhelpful When it comes to controlling the spread of the virus and it's variants. As a mother of former and current D 46 students I thank you and support you.

Shari Frazier- Can you please go over the logistics of the Covid Saliva testing?

Carrie Zook- Thank you to everyone for working together to safely keep our kids in school! The Shield testing and test-to-stay programs are an excellent way to keep kids in the classroom and limit remote learning during quarantine. My kids can't wait to return next week!!

Rachael Rezek- I would like to thank the board for the effort they have made over the past 18 months to make cautious decisions using the best evidence available regarding the use of masks, social distancing, and other matters related to covid and schools. I know there is no way to please all parties, and that it is important to balance the physical safety of students and staff with the psychosocial development of the children of Grayslake. However, as much we don't want it to be the case, masks continues to be the safest way to allow in-person classes barring the approval of a vaccine for children under age 12. Thank you for working to keep our kids safe.

Barbara Szwed-Will sports be available to our children this year?

Matt Cavers- Thanks for taking my question and for your efforts throughout the pandemic. In regard to the mask mandate for students, what is the metric that is being used to determine when it would be safe for kids not to be using masks? Currently, the cases in lake county are way below their peak and deaths are at zero for the 7-day average. Is the goal to have zero COVID cases and then masks can come off? More clarity around what the end goal we are looking to reach would be helpful.

Kris Hartman- I am writing to express my strong support of a masking requirement for all D46 students, teachers, and staff when school resumes. With the drastic increase in Covid cases in Lake County, the delta variant, and the lack of clarity on how long vaccinated individuals are truly protected from covid, it is essential

	that children and those working closely with them remain masked. A mask mandate protects us all, but in particular our unvaccinated children who are most at risk. Other public institutions such as the Grayslake Area Public Library and businesses throughout Grayslake have reinstituted a masking mandate for the safety of our community and it is essential that d46 do its part to protect our children. Thank you for your time.

Memo: Resolution for Hazardous Conditions Eligible for Transportation

Background

The Illinois Department of Transportation (IDOT) requires the Board of Education to annually approve the district's Serious Safety Hazard Zones. These zones, for transportation purposes, are considered hazardous and require reaffirmation by Board resolution for the 2021-2022 school year. The Serious Safety Hazard Zones are designated by the school.

Administrative Considerations

The district must approve this resolution that declares hazards to walking students within 1.5 miles of the designated schools as approved by IDOT. Once approved, the resolution is forwarded to the Regional Superintendent of Schools for transmittal to the Illinois State Board of Education.

District Goal

This action is responsive to District Goal #3- Finance:

Review, expand, and clarify financial practices to increase transparency and communication, with a focus on aligning financial decision-making to district goals.

Recommendation

The administration recommends the Board of Education approve the Resolution for Hazardous Conditions Eligible for Transportation

Memo: Long Range Facilities Plan Update

Background

In 2018-19, CCSD 46's Architect of Record, Wold, partnered with the district to launch a Long-Range Facilities Plan (LRFP) process. This was completed in September 2019 and created a 10-year Long-Range Facilities Plan. The results were not presented to the Board of Education for discussion. In June 2021 the administration engaged with Wold to comprehensively update this plan to support our new Strategic Planning goals around sustainability and long-term facility planning.

Administrative Considerations

Here is an overview and timeline of the process to update the LRFP to align with the current Board of Education's vision for the District:

- July 2021 Meet with District Staff; Conduct site visits; Update matrix
- August 2021 Update cost estimates and priorities;
- August 11, 2021 Present Draft Report to Finance Committee
- September 1, 2021 Present Draft Report to Board of Education, with updated historical spending*
- September 22, 2021 Present Final Report to Board of Education

*The Draft Report has been updated to reflect the capital expenditures made by the district over the last 3 years. We have expended approximately \$1.8 million over this period, averaging \$600,000 per year. These projects have focused on roof replacements and upgrades to parking lots / bus lanes.

District Goal

This action is responsive to: District Goal #3- Finance:

Review, expand, and clarify financial practices to increase transparency and communication, with a focus on aligning financial decision-making to district goals.

Memo: ESSER Spending Plan Update

Background

CCSD 46 was provided with \$953,958 from the ESSER II Fund under the Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act, 2021, enacted on December 27, 2020. The district was provided with \$3,166,693 from the ESSER ARP Fund under the American Rescue Plan Act (ARP) Act, enacted on March 11, 2021.

On September 1, 2021 the administration will provide an update to the Board of Education and the community on the spending plans for these funds.

Administrative Considerations

The administration has operated under the following assumptions while making expenditure recommendations to the Board of Education:

- Funds must be used for intended purposes, including 20% if ESSER ARP designated for learning loss, and the more specific allocations necessary for the "Set-Aside."
- Funds must be available for current unknowns. These currently include:
 - Student academic and social/emotional learning needs in response to the pandemic and interrupted learning experiences
 - Potential technology needs it is noted that many classroom projectors are falling into disrepair. The units are becoming technologically obsolete and therefore difficult to maintain with parts
 - Building ventilation needs outlined in our Indoor Air Quality (IAQ) ventilation assessment reports
 - PPE needs, and other safety mitigation strategies that may develop
- Funds should be used to meet the District Goals that have been outlined in the new Strategic Plan

With the above assumptions in mind, the administration has utilized the following process thus far regarding the expenditure of ESSER funds:

- Administrative Team identifies needs
- Administrative Team identifies appropriate expenditures and funding sources to meet needs
- Administrative Team brings recommendations to BOE

- BOE has opportunity to discuss recommendations for expenditures
- To date, all such expenditures have been approved

Braiding

Financial assistance from several sources is coordinated ... to support a single initiative or strategy, while each individual award maintains its award-specific identity.

Blending

"... financial assistance is combined under a single set of reporting and other requirements, and resources contributed from each individual funding stream lose their original award-specific identity."

Memo: FY 2022 Round 1 School Maintenance Project Grant (SMPG)

Background

The Illinois State Board of Education has made approximately \$47 million available for FY 2022 Round 1 School Maintenance Project Grants (SMPG). SMPG is a dollar for dollar state matching grant program providing awards up to \$50,000 for maintenance or upkeep of buildings for educational purposes. The projects may involve either different types of work on a single building or may involve a single type of work on multiple buildings. Grants shall not exceed \$50,000, and districts must provide a match from local funds equal to the grant amount requested. All projects must be completed within two years of disbursement by the State.

Administrative Considerations

The recommended project is the replacement of the four Rooftop Units (RTUs) at Grayslake Middle School. The FY 2022 tentative budget presented on August 11, 2021 includes \$500,000 for this HVAC equipment and ductwork. By submitting the SMPG application for this project, the District can apply for the maximum grant amount of \$50,000.

Recommendation

The Administration recommends approval of the FY 2022 School Maintenance Project Grant.

BOARD RECOMMENDATION

Memo: 2021-2022 Arbor Management Contract Amendment

Background

On May 19, 2021 the Board of Education discussed the annual contract extension and amendment with Arbor Management, Inc, for the School year 2021-2022. On June 6, 2021 the Board of Education approved the annual contract extension and amendment. The reimbursable meal contract increase was 3%. In addition to the base contract, the contract addendum for the 2021-2022 school year is prepared in accordance with the minimum wage increases mandated by the State of Illinois. This was \$11.00 per hour for the period July 1, through December 31, 2021 and rising to \$12.00 per hour for the period Jan 1, 2021 through June 30.

Federal food service regulations determine that the renewal of a contract must not exceed four additional one-year extensions. The annual contract extension for School year 2021-2022 is the 5th year extension. The current contract renewal is based on the allowable increases of the previous bid award in 2017-2018.

Administrative Considerations

The majority of our students have fully returned in-person, so we need a full staffed food service staff to be able to provide for onsite meal consumption at each school building. Arbor Management, Inc, has made the administration aware that the current rates are too low to attract any new applicants or retain current employees.

Arbor has explained that the workload has increased due to packaging breakfast and having to pre-package the cold fruit and vegetable due to COVID safety protocols. More meals are being served since they are free to families this school year. Out of the 19 employees within the original labor schedule in the contract, they began the school year with 10 employees. To reopen our schools, Arbor Management, Inc, hired 5 temporary employees through an agency at \$22.50 per hour, changed the starting salary of new employees to \$13.50, and increased those already hired to \$14.00 to assist with retention.

Arbor Management, Inc, is requesting the Board of Education consider an Amendment to the current contract rates so that they can hire and retain more staff to be able to provide the food service needed. The chart illustrates below the wage rates as per the contract renewal of the contract in May 2021, wage rates Arbor is currently paying staff to reopen our schools in August 2021, and the proposed wage rates:

Qty	Position	May 2021	August 2021	Proposed
13	Food Service Worker	\$11.00 - \$11.50	\$13.50	\$14.00
1	Driver	\$15.16	\$17.00	\$17.00
7	Lead	\$12.00	\$14.00	\$15.00

The cost of this proposal is \$45,516.70, which is based on 85% of the proposed staffing model cost increase over the school year.

In addition to the staffing shortage, Executive Management from their corporate office in Itasca have been working in Grayslake every day since school opened because they are committed to making sure food service isn't interrupted. Their ownership has instructed the administration that this option isn't sustainable for much longer.

The administration has reached out to three neighboring districts serviced by Arbor Management, Inc, and these are the hourly wages rates. These districts do not have driver positions.

Position	Millburn	Woodland	Lake Villa
Food Service Worker	\$11.00 - \$12.00	\$11.00 - \$14.70	\$11.00
Driver	N/A	N/A	N/A
Lead	\$13.30	\$14.35 - \$15.00	\$13.00

Lake Villa has reported that staffing is an ongoing concern and Woodland has reported minor shortages. Arbor is not seeking a contract amendment with any of the three districts referenced. Arbor Management, Inc, has stated to the administration that the situation in CCSD 46 is localized to us, the most impacted of all their 50+ districts they service and that service may be impacted negatively without a contract amendment.

The administration would like to give the Board of Education three options to discuss:

Option 1: Approve the labor adjustment as proposed by Arbor Management, Inc.

Option 2: Ask Arbor Management to split the labor adjustment in half. Please note that the original contract adjustment that Arbor Management proposed was a request for the school district to pick up the full cost of the labor adjustment. I have asked them to

consider splitting it in half, however Arbor Management, Inc, believes it is not their responsibility to subsidize our food service program.

Option 3: Make no amendment to the contract this year. Address the wage rates in the new contract and bid process, awarded for the 2022-2023 school year.

BOARD OF EDUCATION

2:240 Board Policy Development

The Board of Education governs using written policies. Written policies ensure legal compliance, establish Board processes, articulate District ends, delegate authority, and define operating limits. Board policies also provide the basis for monitoring progress toward District ends.

Policy Development

Anyone may propose new policies, changes to existing policies, or deletion of existing policies. Staff suggestions should be processed through the Superintendent. Suggestions from all others should be made to the Board President or the Superintendent.

A Board Policy Committee will consider all policy suggestions and provide information and recommendations to the Board.

The Superintendent is responsible for: (1) providing relevant policy information and data to the Board, (2) notifying those who will implement or be affected by or required to implement a proposed policy and obtaining their advice and suggestions, and (3) having policy recommendations drafted into written form for Board deliberation. The Superintendent shall seek the counsel of the Board Attorney when appropriate.

Policy Adoption and Dissemination

Policies or policy revisions will not be adopted at the Board meeting at which they are first introduced, except when: (1) appropriate for a consent agenda because no Board discussion is required, or (2) necessary or prudent in order to meet emergency or special conditions or to be legally compliant. Further Board consideration — <u>may</u> be given at a subsequent meeting(s) and after opportunity for community input. The adoption of a policy will serve to supersede all previously adopted policies on the same topic.

The Board policies are available for public inspection in the District's main office during regular office hours. Copy requests should be made pursuant to Board policy 2:250, Access to District Public Records.

Board Policy Review and Monitoring

The Board will periodically review its policies for relevancy, monitor its policies for effectiveness, and consider whether any modifications are required. The Board may use an annual policy review and monitoring calendar.

Words Importing Gender PRESSPlus1

Throughout this policy manual, words importing the masculine and/or feminine gender include all gender neutral/inclusive pronouns.

Superintendent Implementation

The Board will support any reasonable interpretation of Board policy made by the Superintendent. If reasonable minds differ, the Board will review the applicable policy and consider the need for further clarification.

In the absence of Board policy, the Superintendent is authorized to take appropriate action.

Suspension of Policies

The Board, by a majority vote of members present at any meeting, may temporarily suspend a Board policy except those provisions that are controlled by law or contract. The failure to suspend with a specific motion does not invalidate the Board action.

COMMUNITY RELATIONS

8:90 Parent Organizations and Booster Clubs

Parent organizations and booster clubs are invaluable resources to the District's schools. While parent organizations and booster clubs have no administrative authority and cannot determine District policy, the Board of Education welcomes their suggestions and assistance.

Parent organizations and booster clubs may be recognized by the Board and permitted to use the District's name, a District school's name, or a District school's team name, or any logo attributable to the District provided they first receive the Superintendent or designee's express written consent. Consent to use one of the above-mentioned names or logos will generally be granted if the organization or club has by-laws containing the following:

- The organization's or club's name and purpose, such as, to enhance students' educational experiences, to help meet
 educational needs of students, to provide extra athletic benefits to students, to assist specific sports teams or academic clubs
 through financial support, or to enrich extracurricular activities.
- 2. The rules and procedures under which it operates.
- 3. An agreement to adhere to all Board policies and administrative procedures.
- 4. A statement that membership is open and unrestricted, meaning that membership is open to all parent s /guardian s of students enrolled in the school, District staff, and community members.
- A statement that the District is not, and will not be, responsible for the organization's or club's business or the conduct of its members, including on any organization or club websites or social media accounts. PRESSPlus1
- 6. An agreement to maintain and protect its own finances. Including fiscal procedures and safeguards requiring at least two designated individuals to approve all withdrawals of organization funds.
- 7. A recognition that money given to a school cannot be earmarked for any particular expense. Booster clubs may make recommendations, but cash or other valuable consideration must be given to the District to use at its discretion. The Board's legal obligation to comply with Title IX by providing equal athletic opportunity for members of both genders will supersede an organization or club's recommendation.

Permission to use one of the above-mentioned names or logos may be rescinded at any time and does not constitute permission to act as the District's representative. At no time does the District accept responsibility for the actions of any parent organization or booster club regardless of whether it was recognized and/or permitted to use any of the above-mentioned names or logos. The Superintendent shall designate an administrative staff member to serve as the recognized liaison to parent organizations or booster clubs. The liaison will serve as a resource person and provide information about school programs, resources, policies, problems, concerns, and emerging issues. Building staff will be encouraged to participate in the organizations.
